

Project of the month 2014

Hotel Ritz Carlton Almaty, Kazakistan

Project : Ritz Carlton

Category : Hotel

Where : Almaty, Kazakistan

Line : Ambach System 700
Ambach System 900
Ambach Chef 850

Partner : Makpa

This luxury 5-star hotel is located on the foot of Alatau Mountains in Almaty and features a spa centre, an indoor pool and a fitness centre.

The hotel is part of one of the most prestigious hotel chains in the world with the highest quality standards

The request

- 6 new cooking suites and 3 of them are show kitchens
- **Robustness , hygiene, performance, energy savings and flexibility in the execution** of the cooking suites
- As the kitchen is open plan every detail had to be considered and fine tuned to provide complete functionality and match the locations aesthetics.

The solution

- In view of the different types of cooking suites were made with 3 different Ambach ranges **System 900** , **System 700** and **CHEF 850**.
- All show kitchens have a one piece hygienic top and decorated with our Exclusive Execution (colored panels , stainless steel knobs , steel frames , etc.)
- In the cooking suites have been integrated with great flexibility , even specific machines for the “ Asian” area such as dim sum steamer and cold dishes
- Numerous cooking suites were performed with our “**plug & play**” a box that integrates into the cooking suite **all connections at a single point**
- For better logistics all the blocks were made with joints welding which allowed to take the service elevator to the kitchens also on the upper floors of the hotel
